Eric Karl	Parking Services	I'd like to bring my dedication to the service, leadership experience, and commitment to advocating for the best interest of our members. As a retired NYPD officer and current Town of Greenwich employee since 2020, I understand the challenges we face and will work tirelessly to ensure our voices are heard, our rights are protected, and our collective strength continues to grow. I hope to foster stronger communication between members and the leadership, ensure transparency in decision-making, and advocate for the fair treatment and improve working conditions for all. My goal is to build unity and trust while making sure every member's concerns are addressed and represented effectively.		X			X		
Melina Pedraza		I feel that it is important that valued GMEA members are appropriately represented, I have been inspired to contribute after being helped with a concern and want to ensure that others have the same opportunities for assistance. It would be my hope to harbor a successful collaboration and communication between GMEA members and the board while protecting the interests and rights of GMEA members.							X

Sharon Wilson	BOE	I am currently in this position and would like to continue providing fairness and equality for our union members.							X
Linda Marini	Witherell	I would like to continue on the Executive Board in a capacity to help support a newly appointed President and provide support to our entire membership. My tenure on the Board has been one of the most rewarding experiences of my career with the Town. I've watched our Association achieve insurmountable growth. We've dealt with many critical personnel issues, both individual and departmental, addressed diversity across unions, taken part in many Town-wide system changes, and made great progress in securing benefits for our entire membership through the Collective Bargain process. We have accomplished so much and made such great strides in strengthening our union. I believe I can help provide further leadership to that end. I would like to see greater membership participation, build the numbers of members who are actively involved so that we may provide a unified front on all major issues that affect us as Town employees. I would like to strengthen the lines of communication in an effort to allow our memberships' needs, wants, and concerns, to be taken seriously and appropriately acted upon.			X				
Rob Andrassi		To continue assiting the GMEA.				X
